A good number of never before seen letters addressed to writers and art critics (Verhaeren, Lemonnier, Vermeylen, des Ombiaux, Hellens...), to painters (de Regoyos, Hannon, Van Rysselberghe, Rassenfosse, Spilliaert...), to composers and to musicologists (Alpaerts, Vraimont), to patrons and collectors (franck, Juissant, Croquez).

These letters reveal the Ostendais artist under another day and they equally project another perspective on the genesis and the dating of his pictorial works.
