Belgian society during wartime forms the subject of this work, which constitutes the first synthesis essay of Belgian history between 1914 and 1918 since the study by Henri Pirenne. Times of solidarity but also of distrust; of resistance but also of weakness; of exaltation for the country but also, for some, the refusal of the "idée-Belgique." Just like the military front, the interior front is going to remain. A book that places facts in perspective and permits a genuine entry into the deepest depths of twentieth century Belgian society.
